dal club, has gone to Norwalk, Conn. On Saturday the 3rd the Active B. B. will play the East Orange club on the atters' grounds on Glenwood and Springale avenues.

-On Thursday night some malicious boys broke into the garden of Mr. A. G. McCroig and destroyed a number of rare and valuable plants.

The D. L. & W. Railroad Company have cleaned out the ditch along their track in Watsessing. The Town Committee will hear from Mr. G. Kurtz concerning this. What is known in the hat trade as la-

dies hat season having begun, a great

many of the trademen from this district

have left and gone to work in the city. Pierson Post Fife and Drum Corps will accompany Active Hose Company No. 2 on their trip to Philadelphia to par ticipate in the Constitution Centennial parade. Alert Hose Company of Montclair

will also be present. If that rapidly growing and enterpris ing business centre, the corner of Dode and Prospect streets, is going to have horsecar line, its rival, Liberty square, in Watsessing, will have to stir up something. to upset that. A post office will just fill the niche.

-The game of base ball last Saturday between the Y. M. C. A. of Bloomfield and the Active club of this place resulted in another demonstration of the fact that is useless for Bloomfield to play against Watsessing with any hope of winning. The score at the close of the game was 32 to 10 in favor of the Actives.

Query: How is it that of late our hitherto aggressive democrat friends are so quiet? Perhaps they are acting the "non-offensive partisan" role in order to be eligible for that prospective postmastership. Republicans say they dont care a snap if the toughest piece of hickory in the neighborhood gets the position pro vided the place gets a post office.

Last Monday evening the children and grand children of Mr. and Mrs. William Ellor assembled at the latter's residence on Bloomfield avenue, the occasion being the celebration of Mrs. Ellor's birthday. Four sons with their wives, seven grand children and two unmarried sons constituted the assemblage. A very pleasant evening was spent.

A meeting of the Bloomfield Ha Makers Association was held on Monday evening to take action with regard to the Labor Day parade. Much opposition was manifested towards the compulsory methods of last year. It was suggested that the day be kept as a h liday, and the men be left perfectly free to celebrate it as they chose. A ter some discussion the above suggestion was adopted. Some of the makers will go to Woodside and some

-It is both surprising and interesting to note the various shades of political opinion (and that of a positive nature) observable among the inhabitants of this section of the town. Here you find Dem ocrats of the genuine Old Hickery stamp; stalwart Republicans; Prohibitionists who are convinced that prohibition will prohibit; mild-eyed Mugwumps with sentimentally prose-poetical ideas; Labor men, both George and anti-George; and the scaring up of a few advocates of Women's Rights might not prove a difficult task.

-On Monday afternoon Mr. Charles Frank was driving along Watsessing avenue. As he approached the railroad crossing he noticed the gates on the east side of the track in their usual perpendicular position indicating that the track was clear. Accordingly he drove on to the track. The gates on the west side, however, were down and his horse came up against them with such force that it broke a piece six feet long off one of the poles. An employee of the company was sent up to repair the damage. The railroad employees around the depot are interested in settling the question of responsibility. Gateman McCroig is confident that he is not to blame.

The Cross-town Street Railroad Company is about to bring suit against the New York & Greenwood Lake Railroad Company in order to compel that company to allow the street car crossing to be laid at Washington street.

-Residents of Elmwood District, which comprises the south-western part of East Orange township, want a hose company. They have accordingly organized, and elected the following officers: president, Wm. Carter; secretary, J. Walters; treasurer, August Heinalt; foreman, John S. Lindsley; trustees, John Stasse, William E. Lindsley, John Beck 1 his company will be number five in the department.

-The Newark Daily Advertiser says: "The construction of the sewerage works in East Orange has progressed at a very satisfactory rate since the failure of the contractor. The work has since been entirely under the cont. ol of the Township Committee and the engineer, C. P. Bassett. About two-thirds of the street sewers are now properly laid, and it is expected that all remaining to be laid will be completed by December 1st, and by that time the works will be in operation. The main building at the disposal of the works is about completed, and the building containing the receiving tanks is well under

way. The irrigating pipes are all laid, and the old Dodd's saw-mill pond is fast being converted into an attractive park." Residents of the north-east portion of the township, who have opportunity of noting the daily progress made, doubt the ability of the managers to complete the work at the date mentioned.

A. J. Marsh, Chief Engineer of the Bloomfield Fire Department, will represent that body at the convention of the National Association of Fire Engineers, to be held at Atlanta, Ga., on September 20th. The convention will be made up of the Chief Engineers of the various Fire Departments throughout the United States and Canada, Superintendents of Patrol and Salvage Corps, and representatives from Boards of Fire Commissioners and Insurance Companies. The time of the convention will be taken up with discussing matters relating to fires and an exchange of views with regard to the best methods of extinguishing them as well as lessening the danger of their occurrence. A large display of fire apparatus and supplies will be exhibited. Practical tests will be made of their workings. The following are a few of the topics that will be brought before the convention for discussion and on which essays have been prepared: Limitation of height of buildings used for manufacturing; Best method of reaching top of buildings; How to obviate danger from electric wires; Proper construction of, and mutual use in building: Cultivation of fraternal feeling between Fire Departments and underwriters; Importance of employing skilled labor in all Fire Departments; Subject of drill, and many other matters of valuable importance to owners of buildings, Insurance Companies and Firemen. The importance of gatherings like this

cannot be overestimated, tending as they do to cultivate and disseminate a knowledge of how to control one of the most dangerous elements with which business men have to contend and which is so often productive of such disastrous results. A gradual growth in the efficiency of local Fire Departments to reduce the fire losses of the community, insures a corresponding reduction in the rates charged for as-

-The Association base ball club will go to Newark this afternoon to play the Knickerbocker club connected with the Y. M. C. A. of that place. Game will be played at Frelinghuysen avenue grounds. Boys will either meet at rooms or join the rest at depot, leaving Bloomfield at 2:35. The game last Saturday was in favor Watsessing, 34-13, when the game was called on account of darkness at the beginning of the eighth inning.

-The Women's Auxiliary will hold their regular monthly meeting on Monday afternoon at 3 o'clock.

-The first meeting for men on Sunday afternoon takes place in hall tomorrow from 4 to 5 o'clock. The singing will be one of the features of the service which will be of interest to all. The theme wil be "Seeking to See Jesus." Luke 19:1-10 55:6-7, and will be led by the General Secretary. The Saturday night meetings have been discontinued, last Saturday being the last.
